ECO2013 Syllabus

20252 - Spring 2025

Reference Number: 748054

Meeting Information*

Session: ECO 2013 Macroeconomics Session 4

Location: Fully Online in D2L

Faculty Contact Information

Instructor Name: Dr. Suzanne Page
Department/Office Number: 954- 201- 7390
Office Hours: Monday and Thursday 4:30-6:30p.m.
Office Location: Online, Phone Zoom
Email: spage@broward.edu

Email Statement

Please contact me through the D2L email tool. To reach my D2L email, use only the email tool inside of D2L. Use my Broward College email only if you are unable to access the course email. My Broward College email is spage@broward.edu. **Note that your D2L email and Broward College email are two separate accounts and separate systems that do not communicate with each other.**

Course Information*

This is a 3-credit hour fully online asynchronous course. In this class, you will engage in graded and non-graded activities. See the Course Schedule for more information.

Prerequisites and Corequisites*

None, but it is recommended that you have achieved eligibility to take ENC1101.

Course Description*

An introductory course in macroeconomic principles covering basic economic problems and concepts. Topics discussed and analyzed include basic economic problems of unemployment, inflation, and economic growth, as well as fiscal and monetary policies. Students will recognize the role of households, businesses and governments in the market economy and in their own lives. ECO2013 is a writing credit course. Students must earn a minimum grade of C to meet the requirements of the Gordon Rule for writing.

State Communication and Computation Requirement (Also known as the Gordon Rule): This course is used in partial fulfillment of the social science writing requirement of the State of Florida's General Education Program. This means that to receive writing credit students are required to earn 70% or more as a final grade.

General Course Outcomes*

By the end of this course, students will be able to:

- 1.0 - Define, give examples and illustrate basic economic concepts.
- 2.0 - Measure and evaluate economic activity using national income accounts, inflation and unemployment, and summarize the causes and effects of economic growth.
- 3.0 - Analyze national economic activity through the aggregate demand and supply model.

- 4.0 - Evaluate the roles of money, banking and the financial sector in the national economy.
- 5.0 - Evaluate and apply fiscal and monetary policies to economic situations.
- 6.0 - Describe the theories and problems of international trade, balance of payments and exchange rates.
- 7.0 - Compose essays that describe, differentiate, and exemplify economic concepts, principles or theories.

Textbook and Course Materials*

Required

Title or Material Name	Macroeconomics Principles for a Changing World, 6th edition with Achieve Access
Author(s)	Eric Chiang
ISBN	978-1-319-25333-2 (epub)
Publisher	Worth Publishers
Edition	6th edition
Description/Additional Information	Achieve offers an eBook, course-and book-specific resources, Learning Curve adaptive quizzing, and other learning tools. In addition, Achieve is a fully mobile accessible, and flexible learning platform. You must purchase the eBook with Achieve access to complete certain graded assignments.

First Day Program

To enhance your learning experience and simplify access to the right materials for your class, your course is part of an inclusive access model called First Day®. Your course materials have been integrated directly into your course. Broward College will bill you at a discounted price for your required materials as an additional charge for this course.

BENEFITS OF THE FIRST DAY PROGRAM

- Deeply discounted materials - lowest price available
- Guaranteed the right materials
- Ready to go on day one
- Course materials charge will be placed on your student account
- Loose-leaf materials are available for a fee
- Option to Opt-Out on the first day of class in D2L

2 EASY STEPS TO ACCESS MATERIAL

1. Log in to your course in D2L
2. Navigate to your course Content area to find any external learning tool link to the integrated content

OPTING OUT OF FIRST DAY PROGRAM

Students should only use the Course Materials link to "Opt-out" if intending to opt-out, otherwise, everything is set in the course content.

You have the option to opt-out of this program in D2L. However, please be advised it is NOT recommended that you Opt-Out, as these materials are required to complete the course. If you choose to opt out, you will be responsible for purchasing your course materials and vendor access at the normal retail price on your own.

Student concerns or questions can be brought to the Barnes & Noble College Customer Care Team:

- Customer Care website and FAQs: https://tinyurl.com/firstdayfaq

- Open a ticket Online for the Customer Care team: https://tinyurl.com/customercarerequest
- Email the Customer Care team: bookstorecustomercare@bncollege.com
- Call the Customer Care team: 1-844-9-EBOOKS (1-844-932-6657)

Technology Requirements

This course utilizes the following required software or hardware:

In order for you to have the most effective learning environment, it is important that you are using the

right equipment. For this course, you will be required to have:

- A reliable Internet connection
- Regular access to a laptop or desktop computer with an updated operating system and web browser. Visit the technical requirements page for a complete list of system and software requirements and the D2L System Check to ensure your browser is properly configured for online learning.
- Microsoft Office 365 is available for download for all Broward College students. Follow the directions to download and access Microsoft 365.
- A webcam and microphone for proctored exams, class activities, and virtual sessions.

Student Expectations*

Attendance Verification

You are expected to participate in an academic activity to be considered present in the course. You must complete an academic activity during the first week of the course so that it is done before the attendance verification date. The academic activity is usually the syllabus quiz or a discussion post. Just logging into the course or sending an email to your instructor will not satisfy the attendance requirement. Like your on-campuses courses, if you are reported for non-attendance in an online course and then withdrawn, you are still responsible for paying for the course. If for any reason you cannot complete the attendance verification requirement before the deadline, make certain to drop the course by the official drop/add deadline, or you will still have to pay for the course.

Participation

To succeed in this course, log in and participate multiple times throughout the week (check email, announcements, class discussions, feedback, etc.) so you do not miss critical course information and updates. Additionally, communication with your professor is very important and plays a vital role in your success.

Withdrawal Policy

It is your responsibility to withdraw from this course. If you stop participating and do not withdraw by the deadline, you may receive an F.

Late Work Policy

For this course, unless otherwise noted by the instructor, submitting work late will be permitted only under qualifying circumstances and only with prior notification and supporting documentation (original funeral notice, original doctor's note, etc.). Computer and internet connectivity problems are not valid reasons for late work. It is the student's responsibility to be technologically prepared to take an online course.

Academic Honesty

When you log into D2L, you do so with the understanding and agreement that you will produce your own work, complete class assignments and discussions yourself, and take class exams, tests, or quizzes without the assistance of others. All academic work must be the result of your own thought, research, or self-expression. Academic misconduct includes, but is not limited to, the following:

Types of Academic Dishonesty:

- **Sharing Access or Passwords to D2L:** Keep your username and password confidential.
- **Cheating:** Obtaining, attempting to obtain, or aiding another to obtain credit for work by dishonest or deceptive means.
- **Plagiarism:** Using the words or ideas of the original creator without attribution as if they were your own. Plagiarism ranges from copying someone else's work verbatim and elaborating on or altering someone else's work.
- **Self-Plagiarism:** Submitting or reusing parts of a previous paper without referencing the source to which it was first submitted. This includes retaking a course and turning in previously submitted papers and data.

- **Unacceptable Collaboration:** Using answers, solutions, or ideas that are the results of collaboration without citing the fact of the collaboration.
- **Falsification of Data:** Making up or falsifying information and data. Examples include making up or altering data for an experiment or citing reference to sources you did not actually use.
- **Pay/Outsourcing Services:** Employing an assignment writing service or having another person, student, or artificial intelligence (AI) program write the paper for you.
- **Enabling:** Aiding and abetting another student in an act of academic dishonesty. Examples include giving someone a paper to copy and/or allowing someone to access your account.
- **Unauthorized of Malicious Interference:** Deliberately interfering with the work or activities of another person on purpose to cause the other harm or irreparable damages.
- **Inappropriate Use of Course Materials:** Distributing materials in this class and on D2L, including the syllabus, exams, slides, handouts, study aids, and presentations that may be protected by copyright and are provided solely for the educational use of students enrolled in this course. You are not permitted to redistribute them for purposes unapproved by the instructor; in particular, you are not permitted to post course materials, quiz or exam questions, or discussions on commercial websites. Unauthorized use of course materials may be considered academic misconduct.

Online courses use tools such as Turnitin and remote proctoring to deter and detect academic dishonesty. In this course, the first time you are found being academically dishonest, you will receive a zero for the assignment. If you are found academically dishonest a second time, you will receive an F in the course. Academic dishonesty may result in further disciplinary action and/or referral to the Dean of Student Services. For more information, refer to the Student Code of Conduct Policy and the Student Code of Conduct section located in the Student Handbook.

Computer Knowledge and Skills

By taking an online course, your computer literacy skills will grow. Some of the skills you will need at the beginning of the course include:

- Working knowledge of how to use multiple web browsers (Chrome, Firefox, Safari, etc.) to navigate the internet and locate information.
- Sending and receiving email using your D2L email (within the online course) and your BC email address. You should only use your instructor's BC email if you cannot access D2L. Note that your D2L email and Broward College email are two separate accounts and separate systems that do not communicate with each other.
- File management skills including downloading and saving files on your computer, uploading files to D2L, and sending email messages with attachments.

Course Activities

Discussions

Remember, discussions are public and everyone in your course can read what you post. Review the D2L discussion tutorial or general support with the discussion tool.

Discussion Expectations:

- Use D2L to access assignments.
- See the course schedule for Discussion due dates.
- Refer to the discussion rubric for specific grading criteria.
- Grades will be posted within 5 days of the discussion due date.
- To be eligible to receive full credit for a discussion, you must submit your initial discussion 4 days prior to the due date. This allows class members enough time to respond to each others posts. Additionally, your 2 response posts to 2 different classmates must be posted so that class members have time to respond before the due date.

Assignments

Assignments must be submitted by the due dates as specified in your syllabus. The submission of an assignment is your sole responsibility. You should keep an electronic copy of all assignments. Review the D2L assignment tutorial for general support with the assignment tool.

Assignment Expectations:

- Use D2L to access assignments.
- See the course schedule for due dates.
- There is one Pre-Class Tutorial assignment per chapter and each is worth 5 points.
- There is one Learning Curve assignment per chapter and each is worth 10 points.
- There is one Homework assignment per chapter and each is worth 20 points.
- There is 1 Reflection Paper worth 100 points.
- Refer to the assignment description, rubric and other assignment resources for grading criteria.

- Grades will be posted within 5 days of the assignment due date.
- All assignments must be submitted in doc, docx, pdf and/or xls or xlsx if the assignment requires Excel. **Any other format is not acceptable and will receive a grade of "0".**

Final Test

The Final Test may be taken only during the availability dates as specified in the Course Schedule. Give yourself plenty of time to complete assessments and pay close attention to the time limits. Make sure you have a reliable Internet connection prior to taking quizzes or tests. Review the D2L quizzes and tests tutorial for general support with quizzes and tests.

Final Test Expectations:

- Use the Achieve Learning Platform to access assignment.
- There is 1 Final Test worth 200 points.
- See the course schedule for the Final Test due date.
- The test contains 70 multiple choice, graphing, numerical entry and matching type questions. All questions are weighted equally (70/200).
- **Do not attempt to preview the Final Exam as it will count as your 1 attempt and will be scored as "0". CLICKING ON THE FINAL EXAM TAB, EVEN IF YOU DON'T SEE ANY QUESTIONS WILL COUNT AS YOUR 1 ALLOWABLE ATTEMPT.**

Grade Distribution

	Grades
Assessment	
Syllabus Quiz and Student Introduction (2 @ 6 points each)	
Pre-Class Tutorials (14 @ 5 points each)	
Learning Curve (14 @ 10 points each)	

Homework (14 @ 20 points each)	
Scenarios (6 @ 30 points each)	
Scenario Takeaways (6 @ 3points each)	
Reflection Paper (1 @ 100 points each)	
Final Test (1 @ 200 points)	
Total	

Grading Scale*

Grade = A	90 - 100%
Grade = B	80 - 89.9%
Grade = C	70 - 79.9%
Grade = D	60 - 69.9%
Grade = F	0 - 59.9%

Communication and Faculty Response

Communication

During the semester, your communications concerning the course should be restricted to the D2L email. As mentioned earlier, do not send class-related emails to the instructor's BC email address. It is recommended that you post class-related questions in the discussion area called the Course Café. Other students have the same questions as you or may even be able to answer your questions.

Netiquette

- In all online communications, it is expected that students will follow the rules of online netiquette, a guideline for polite online behavior. Review some of the general netiquette rules.
- Individuals who violate netiquette rules or engage in disruptive online behaviors, such as flaming (posting disrespectful or hostile comments), posting inappropriate comments, or shouting (posting messages using all capitals), may have their class access privileges revoked and/or they may be referred to the Dean of Student Services. Students who

continue to engage in unacceptable online behavior even after being warned, may be permanently denied access to the class and/or may receive an F for the class.

- Don't use email shorthand like ROTFLO (rolling on the floor laughing out loud), BTW (by the way), or text-style writing like R-U thinking, etc. Not everyone knows what those abbreviations mean. If you want to use emoticons (smileys) to convey feelings, stick with the basics [e.g.,happy :-), sad :-(, or wink ;-)]. Others are less well-known and are subject to different interpretations. The idea is to be clear in your communications.
- Use discretion when posting and/or sending emails. Make sure to check spelling, punctuation, grammar, capitalization, and sentence structure.

Faculty Response

Class emails will be answered within 24-36 hours. If you need information related to a test or assignment, plan ahead and submit your questions in advance of the due date. If, for some reason, the class communication tools are unavailable for more than 24 hours, the instructor will communicate with students (if necessary) via their BC email address. Once the semester has ended, and only if necessary, you may contact the faculty member using the instructor's BC email address.

Course Schedule Table

Orientation **Start Here Unit: 3/13 to 3/16**	**Activities**

	***All Orientation Activities**

Unit 1: 3/13 to 3/23	**Activities**

Orientation **Start Here Unit: 3/13 to 3/16**	**Activities**
Learning Outcomes By the end of this unit, students will be able to: • LO 1.1: Distinguish between macro and microeconomics. • LO 1.2: Explain scarcity, choice and opportunity costs. • LO 1.3: Analyze trade-offs through the production possibilities curve and use it to demonstrate economic growth. • LO 1.4: Explain the factors of production and technology and their relationship to the structure and performance of an economy. • LO 1.8: Explain the concept of market failure and the government's role in correcting externalities. • LO 1.9: Distinguish between normative and positive statements and identify logical fallacies. • LO 1.10: Apply graphical analysis to demonstrate economic concepts. • LO 1.11: Compare and contrast a market economy and a command economy.	**Chapter 1** • Read and study Chap • Complete the Pre-Cla Homework Assignme • Complete Scenario 1 • Engage in Scenario 1 Comparative Advanta **Chapter 2** • Read and study Chap • Complete the Pre-Cla Homework Assignme • Complete Scenario 1 Comparative Advanta ***All Unit 1 Activities are d**
Unit 2: 3/13 - 3/23	**Activities**

Orientation **Start Here Unit: 3/13 to 3/16**	**Activities**
Learning Outcomes By the end of this unit, students will be able to: • LO 1.5: Explain the Law of Demand, Law Supply, and illustrate these graphically. • LO 1.6: Explain the determinants of demand and supply and illustrate these graphically. • LO 1.7: Explain the concept of market equilibrium and illustrate it graphically. • LO 1.8: Explain the concept of market failure and the government's role in correcting externalities. • LO 6.1 Differentiate between the different types of market failures. • LO 6.2 Explain the mechanisms the government uses to correct for market failures. • LO 6.3 Distinguish between public and private good. • LO 6.4 Describe misallocation of resources due to positive and negative externalities. • LO 6.6 Illustrate the inefficiencies of price controls and describe their consequences.	**Chapter 3** • Read and study Chap • Complete the Pre-Cla Homework Assignme • Complete Scenario 2 • Engage in Scenario 2 **Chapter 4** • Read and study Chap • Complete the Pre-Cla Homework Assignme • Complete Scenario 2 ***All Unit 2 Activities are d**
Unit 3: 3/24 - 4/6	**Activities**

Orientation **Start Here Unit: 3/13 to 3/16**	**Activities**
Learning Outcomes By the end of this unit, students will be able to: • LO 1.10 Apply graphical analysis to demonstrate economic concepts. • LO 2.1 Explain the major components of the circular flow model. • LO 2.2 Measure GDP and explain its components. • LO 2.3 Differentiate between real and nominal GDP using both CPI and the GDP deflator. • LO 2.4 Explain inflation, demand pull and cost push inflation and their effects. • LO 2.5 Evaluate the causes and effects of unemployment, distinguish among the major types of unemployment, measure unemployment and evaluate the measurement techniques. • LO 2.6 Explain and analyze the business cycle, including cause and effect. • LO 7.1 Formulate an effective thesis statement that responds to the purpose of a writing assignment. • LO 7.2 Develop essays with effective introductions, body paragraphs, and conclusions. • LO 7.3 Students will describe, differentiate, and exemplify economic concepts, principles or theories.	**Chapter 5** • Read and study Chap • Complete the Pre-Cla Homework Assignme • Complete the Scenar • Engage in Scenario 3 **Chapter 6** • Read and study Chap • Complete the Pre-Cla Homework Assignme • Complete Scenario 3 ***All Unit 3 Activities are d**
Unit 4: 3/24 to 4/6	**Activities**

Orientation **Start Here Unit: 3/13 to 3/16**	**Activities**
Learning Outcomes By the end of this unit, students will be able to: • LO 1.10 Apply graphical analysis to demonstrate economic concepts. • LO 2.4 Explain inflation, demand pull and cost push inflation and their effects. • LO 2.5 Evaluate the causes and effects of unemployment, distinguish among the major types of unemployment, measure unemployment and evaluate the measurement techniques. • LO 2.6 Explain and analyze the business cycle, including cause and effect. • LO 3.1 Explain the determinants of consumer spending, saving and investment and illustrate these graphically. • LO 3.2 Explain and evaluate the importance of savings and investment to economic growth. • LO 3.3 Explain the concepts of aggregate supply and aggregate demand and illustrate these graphically. • LO 3.4 Explain the determinants of aggregate supply and aggregate demand and illustrate these graphically. • LO 3.5 Calculate and interpret the multiplier and its impact on aggregate demand and GDP.	**Chapter 7** • Read and study Chap • Complete the Pre-Cla Homework Assignme • Complete the Scenar • Engage in Scenario 4 **Chapter 9** • Read and study Chap • Complete the Pre-Cla Homework Assignme • Complete Scenario 4 ***All Unit 4 Activities are d**
Unit 5: 4/7 - 4/20	**Activities**

Orientation **Start Here Unit: 3/13 to 3/16**	**Activities**
Learning Outcomes By the end of this unit, students will be able to: • LO 1.10 Apply graphical analysis to demonstrate economic concepts. • LO 3.5 Calculate and interpret the multiplier and its impact on aggregate demand and GDP. • LO 3.6 Distinguish and evaluate the different macroeconomic equilibria; the short run, intermediate run, and long-run. • LO 3.7 Explain Supply-Side economics and how this theory differs from the Keynesian approach. • LO 4.1 Define the major functions and characteristics of money. • LO 4.2 Explain what is meant by transaction and asset demand for money and how interest rates are determined using money supply and demand curves. • LO 4.4 Explain and calculate nominal and real interest rates. • LO 4.5 Use graphical analysis to explain the loanable funds market. • LO 5.1 Explain and differentiate the tools of monetary and fiscal policies, correctly identifying the appropriate policies for use in inflation and recession. • LO 5.3 Evaluate the impact of government deficits and debt. • LO 5.5 Demonstrate the effects of fiscal and monetary policy using the AD/AS model.	**Chapter 10** • Read and study Chap • Complete the Pre-Cla Homework Assignme • Complete the Scenar • Engage in Scenario 5 **Chapter 11** • Read and study Chap • Complete the Pre-Cla Homework Assignme • Complete Scenario 5 ***All Unit 5 Activities are d**
Unit 6: 4/7 - 4/20	**Activities**

Orientation **Start Here Unit: 3/13 to 3/16**	**Activities**
Learning Outcomes By the end of this unit, students will be able to: • LO 2.4 Explain inflation, demand pull and cost push inflation and their effects. • LO 3.6 Distinguish and evaluate the different macroeconomic equilibria; the short run, intermediate run, and long-run. • LO 4.1 Define the major functions and characteristics of money. • LO 4.2 Explain what is meant by transaction and asset demand for money and how interest rates are determined using money supply and demand curves. • LO 4.3 Explain the origins and functioning of the fractional reserve banking system in the US and how the system creates money, including the monetary multiplier. • LO 5.1 Explain and differentiate the tools of monetary and fiscal policies, correctly identifying the appropriate policies for use in inflation and recession. • LO 5.2 Evaluate and compare the efficacy of fiscal and monetary policies, identifying and explaining lags and other factors such as the crowding out effect. • LO 5.6 Demonstrate the effects of monetary policy on the money supply and demand curve.	**Chapter 12** • Read and study Chap • Complete the Pre-Cla Homework Assignme • Complete the Scenar • Engage in Scenario 6 **Chapter 13** • Read and study Chap • Complete the Pre-Cla Homework Assignme • Complete Scenario 6 ***All Unit 6 Activities are d**
Unit 7: 4/21 - 4/30	**Activities**

Orientation **Start Here Unit: 3/13 to 3/16**	**Activities**
Learning Outcomes By the end of this unit, students will be able to: • LO 3.6 Distinguish and evaluate the different macroeconomic equilibria; the short run, intermediate run, and long-run. • LO 3.7 Explain Supply-Side economics and how this theory differs from the Keynesian approach. • LO 5.1 Explain and differentiate the tools of monetary and fiscal policies, correctly identifying the appropriate policies for use in inflation and recession. • LO 5.4 Compare and contrast the expected outcome of stabilization policies from the perspective of alternative theories. • LO 5.5 Demonstrate the effects of fiscal and monetary policy using the AD/AS model. • LO 5.6 Demonstrate the effects of monetary policy on the money supply and demand curve. • LO 6.3 Explain the major elements of the balance of payments and evaluate the trade deficit, and explain the relationship between the current and capital and financial accounts. • LO 6.4 Explain exchange rate systems, as well as flexible versus fixed exchange rates. • LO 6.5 Interpret an exchange rate graph to explain currency appreciation and depreciation.	**Chapter 14** • Read and study Chap • Complete the Pre-Cla Homework Assignme **Chapter 16** • Read and study Chap • Complete the Pre-Cla Homework Assignme ***All Unit 7 Activities are d**
Unit 8: 4/30 - end	**Activities**
Learning Outcomes By the end of this unit, students will be able to meet the General Learning Outcomes for this course.	**Final Unit** • Complete the Reflect **Due by 11:59 PM on 5/1** • Complete the Final Te **Due by 11:59 PM on 5/3**

Changes to the Syllabus

The instructor reserves the right to make changes to the class syllabus. The syllabus is a guide, and every attempt is made to provide an accurate overview of the class. However, circumstances and events may make it necessary for the instructor to modify the syllabus during the semester. In the event changes become necessary, students will be notified through class email, the discussion board, and/or the announcements tool.

Academic Accommodations and Electronic Content Conversion*

Academic Accommodations: Any student seeking academic accommodation due to a disability must first register with Accessibility Resources by visiting https://www.broward.edu/accessibility/resources.html. If approved, and in accordance with Broward College Policy 6Hx2-5.09, it is the student's responsibility to then deliver their accommodation plan in person or via email to the instructor and discuss accommodation for the class. Accommodation is not retroactive. Students who wait until after completing the course, or

an activity, to request accommodation should not expect any grade to be changed, or to be able to retake the course or activity.

Electronic Content Conversion: All students in this class have access to Blackboard Ally, which is a tool that can easily convert electronic text into alternative formats such as MP3 files and readable PDFs. For information on how to utilize this tool, please visit the Blackboard Ally Help Page at https://www.broward.edu/accessibility/ally.html.

Safety, Security, and Emergency Preparedness*

Safety is everyone's responsibility, and it is essential that all members of the Broward College community familiarize themselves with various safety tools, resources, and procedures to remain safe both on and off-campus. You are encouraged to visit the Campus Safety & Security website (https://www.broward.edu/safety/) for a wealth of information and resources as it relates to safety at Broward College. Included on the website is a variety of information, videos, and resources on crime prevention, active shooter preparedness, how to report suspicious activity, hurricane preparedness (https://www.broward.edu/safety/emergency-preparedness.html), services, and how to respond in an emergency. Campus Safety is available 24 hours a day, 7 days a week and can be reached by calling **954-201-HELP (4357)**. In the event of a school closing, due to weather or other major events that might impact class schedules, the instructor will post an announcement and/or send an email indicating what changes, if any, the event will have on the course schedule and due dates.

Help Desk (Service Portal)*

If you need help using D2L:

- Click on D2L Support at Broward College (https://bconline.broward.edu/content/resources/d2l/index.html?ou=557056)
- Visit the 24/7 Help Desk (Service Portal) page for 24-hour technical assistance, or
- Contact the BC Help Desk (Service Portal) at 954-201-7521.
