MAC1105C Syllabus

20251 - Fall 2024

Reference Number: 739793

Meeting Information*

Session: 1

Days/Times: Monday & Wednesday 6:30 pm to 8:45 pm

Location: North Campus 49-105

Faculty Contact Information

Instructor Name: Danac Lebrun
Department/Office Number: 49-105
Office Hours: 6:00 pm to 6:29 PM
Office Location: 49-105
Email: dlebrun@broward.edu
Additional Information: 786-547-3334

Course Information*

MAC1105C - Corequisite College Algebra is a 5-credit hour face-to face course with on-campus lectures, in-class activities, and online activities. Proctored assessments are completed in class. See the course schedule for a detailed description.

Prerequisites and Corequisites*

This course does not have any required pre-requisites or co-requisites.

Course Description*

This course meets the needs of students with myriad levels of mathematical experience by providing support for learning prerequisite skills. This course is delivered as a combination of lecture along with structured activities intended to give students the experience of doing mathematics on their own or in groups with instructor guidance. The algebra objectives of the course include factoring polynomials; simplifying radicals; operations on rational expressions; writing equations of lines and circles; solving and graphing the solutions of linear and quadratic inequalities; solving systems of linear equations; solving quadratic, absolute value, radical, rational, exponential, and logarithmic equations; and properties and analysis of relations, functions and their graphs. Applications appear throughout the course.

General Course Outcomes*

By the end of this course, students will be able to:

- Solve linear inequalities, find unions and intersections of sets, and write interval notation.
- Factor polynomial expressions using a variety of methods.
- Simplify radical expressions.
- Solve absolute value, quadratic, and radical equations; and quadratic inequalities.
- Perform operations with rational expressions and solve rational equations.
- Write and graph equations of circles and lines.
- Perform operations on, evaluate, analyze, and graph functions.
- Analyze and graph quadratic functions.
- Solve exponential and logarithmic equations, and graph exponential and logarithmic functions.
- Solve systems of linear equations graphically and algebraically, and solve applications.

Textbook and Course Materials*

Required Course Materials

Title or Material Name	ALEKS 360 Student Access Code
Author(s)	
ISBN	
Publisher	McGraw Hill
Edition	
Description/Additional Information	When you registered for MAC1105C, you automatically reserved your **ALEKS** access code though D2L through a program called **First Day Course Materials Program**. That is, you can start using ALEKS from the very first day of class. (Go to the **"Click Here to Access ALEKS Assignments"** folder located under Content). You will be notified by Broward College Registrar's Office of a receivable (a bill) for ALEKS. If you receive financial aid, this receivable will be covered. If you do not receive financial aid, please be sure to pay this receivable on time once you get notification. **Note,** if you drop this course during the drop/add period, you will not be charged and your access to ALEKS will be terminated. The ALEKS 360 Student Access code gives you also access to the e-book.
Course Packet	MAC1105C Course Packet - Available in the College Bookstore

	ISBN	9781711493923
Publisher	Broward College XanEdu
Additional Information	The student should bring this packet to every class in a 3-ring binder.

Recommended

	Scientific Calculator (TI-30X IIS, TI-30XIIB, or TI-30XA)
	**Title**: College Algebra with Corequisite Support **Authors**: Julie Miller & Dona Gerken **Publisher**, Edition: McGraw Hill, 1st edition **ISBN**: 9781264308002
WHAT IS FIRST DAY™? **(discounted digital course materials)**	**First Day Course Materials**

Student Expectations*

Attendance

Students are required to attend all classes. If a class is missed, a grade of zero will be assigned for any of that day's class work. There will be no penalty for a student who is absent from academic activities because of religious holiday observance of their own faith, the student's serious illness, death in immediate family, or attendance to statutory governmental responsibilities. In such cases, it becomes the student's responsibility to make up work missed due to the absence, and the student must notify the instructor of the absence via email using the email tool in D2L, providing necessary documentation.

Attendance Verification

All students are expected to attend the first week of class.

If a student does not attend class during the enrollment verification period, the student will be reported as never attended and a WN enrollment status will be recorded for non-attendance. No refund will be granted. The dates of the enrollment verification period can be found on the College website at https://www.broward.edu/registrar/term-dates.html.
After the attendance verification, the professor cannot process withdrawals for any reason. Therefore, if a student decided to withdraw, it is the student's sole responsibility to do so. The student must verify that the withdrawal is properly recorded through the Registrar's Office prior to the withdrawal deadline as well.
Students are required to attend all classes. If a class is missed, a grade of zero will be assigned for any of that day's class work. There will be no penalty for a student who is absent from academic activities because of religious holiday observance of their own faith, the student's serious illness, death in immediate family, or attendance to statutory governmental responsibilities. In such cases, it becomes the student's responsibility to make up work missed due to the absence, and the student must notify the instructor of the absence via email using the email tool in D2L, providing necessary documentation.
To succeed in this course, log in to D2L and participate multiple times throughout the week (check email, announcements, class discussions, feedback, assignments, etc.) so you do not miss critical course information and updates. Additionally, communication with your professor is very important and plays a vital role in your success.

Participation

Arrive on time, place your phone on silent mode, be engaged in the day's lesson and activities, ask questions, answer questions when appropriate, and listen without interruption to your professor and fellow classmates while they are talking.
Additional Broward College policies can be found at: Student Handbook

Withdrawal Policy

During the second week of class, professors are required to report students who have never attended, and these students will be administratively withdrawn. Following this attendance confirmation, it is your responsibility to withdraw from this course. If you stop participating and do not withdraw by the deadline, you may receive an F.

Late Work Policy

Deadlines for assignments, discussions, quizzes, tests, and all other graded and non-graded activities are posted in the course schedule on D2L. Submitting work late will be permitted only under extenuating circumstances and only with prior notification and appropriate documentation. It is at the discretion of the instructor to offer an extension or a make-up activity, and it is not guaranteed. However, a student will not be penalized for an absence due to observances of major religious holy days in the student's own faith, the student's serious illness, death in the immediate family, or attendance to statutory governmental responsibilities. Make-up tests will only be considered under extenuating circumstances, and with prior notification and appropriate documentation. Scheduling appointments and vacations are not valid reasons for requesting a make-up test.
Students who tested positive for COVID-19 need to self-report for make-ups. A letter from Student Services (or doctor's note) is required for make-ups. Here is the self-report link: https://cm.maxient.com/reportingform.php?BrowardCollege&layout_id=14

3-Take Rule

Florida state law limits students to three attempts at any one course and requires out of state tuition for your third attempt. If this is your third enrollment in this course, then the grade of "W" is not an option and you will have to complete the course.

Audit

A student may change to audit with the permission of the faculty member until the withdrawal deadline. A student who audits a course must adhere to attendance requirements of the course. In addition, the student must complete all assignments and examinations that his/her professor stipulates. No grade will be assigned, and no credit will be awarded. Students may not audit a course on a third attempt.

Academic Honesty

Broward College expects its students to be honest in all their coursework and activities. A student's academic work must be the result of his or her own thought, research, or self-expression.

In this course, the first time you are found being academically dishonest, you will receive a zero for the assignment. If you are found academically dishonest a second time, you will receive an F in the course. Academic dishonesty may result in further disciplinary action and/or referral to the Dean of Student Services. For more information, refer to the Student Code of Conduct Policy and the Student Code of Conduct section located in the Student Handbook.

Academic misconduct includes, but is not limited to, the following:

Types of Academic Dishonesty:

- **Sharing Access or Passwords to D2L:** Keep your username and password confidential.
- **Cheating:** Obtaining, attempting to obtain, or aiding another to obtain credit for work by dishonest or deceptive means.
- **Plagiarism:** Using the words or ideas of the original creator without attribution as if they were your own. Plagiarism ranges from copying someone else's work verbatim and elaborating on or altering someone else's work.
- **Self-Plagiarism:** Submitting or reusing parts of a previous paper without referencing the source to which it was first submitted. This includes retaking a course and turning in previously submitted papers and data.
- **Unacceptable Collaboration:** Using answers, solutions, or ideas that are the results of collaboration without citing the fact of the collaboration.
- **Falsification of Data:** Making up or falsifying information and data. Examples include making up or altering data for an experiment or citing reference to sources you did not actually use.
- **Pay/Outsourcing Services**: Employing an assignment writing service or having another person, student, or artificial intelligence (AI) program write the paper for you.
- **Enabling:** Aiding and abetting another student in an act of academic dishonesty. Examples include giving someone a paper to copy and/or allowing someone to access your account.
- **Unauthorized or Malicious Interference:** Deliberately interfering with the work or activities of another person on purpose to cause the other harm or irreparable damages.

- **Inappropriate Use of Course Materials:** Distributing materials in this class and on D2L, including the syllabus, exams, slides, handouts, study aids, and presentations that may be protected by copyright and are provided solely for the educational use of students enrolled in this course. You are not permitted to redistribute them for purposes unapproved by the instructor; in particular, you are not permitted to post course materials, quiz or exam questions, or discussions on commercial websites. Unauthorized use of course materials may be considered academic misconduct.

Support Services for Students

Student Assistance Program (SAP)

The Broward College Student Assistance Program (SAP) is provided by Henderson Student Counseling Services. The SAP provides individual mental health counseling, assessment, consultation, and campus outreach services to the Broward College community. Feel free to use these services to help you cope with the issues you may encounter. Henderson Student Counseling Services is a leader in behavioral healthcare providing comprehensive, recovery-focused services. Services range from stress management and coping strategies to psychiatric assessment and crisis intervention. Students who use these services are eligible for up to six counseling sessions free of charge. To schedule an appointment, call 954-424-6916. For further information go to https://www.hendersonbh.org/t-student-counseling-services/broward.

Seahawk Outreach Services (SOS)

The Mission of Seahawk Outreach Services (SOS) is to provide wrap-around services and holistic support to students by connecting them to key campus resources and referring them to community organizations. The goal of SOS is to help reduce food and housing insecurities, stress/mental health challenges, homelessness, and financial obstacles among our student population. For further information go to https://students.broward.edu/resources/seahawk-outreach/index.html.

Grade Distribution

How the Grade will be Determined	
Assessment	Percent of Final Grade
Learning Path	2%

Growth Mindset Discussions	6%
Learning Activities	7%
Homework in ALEKS	15%
Five Proctored Tests	53%
Proctored Final Exam	17%
Total	100%

Grading Scale*

Grade = A	90 - 100%
Grade = B	80 - 89.9%
Grade = C	70 - 79.9%
Grade = D	60 - 69.9%
Grade = F	0 - 59.9%

Course Schedule Table

MAC1105C SCHEDULE Template				
OF EK	DATE	MEETING	TEXT CH.SEC	EVENTS
	8/19	CLASS 1		Introduction and Orientation
			1.4	Union and Intersection of Sets
				DUE BEFORE CLASS 2 MEETS: See "Getting to Know ALEKS" in the Course Orientation.
				Log into ALEKS for the first time
	8/21	CLASS 2	1.5	Linear and Compound Inequalities
			2.3	Greatest Common Factor
				ALEKS PATH PART 1 OF 4 DUE BEFORE CLASS 3 MEETS
				ALEKS HW 1.4 DUE BEFORE CLASS 3 MEETS
				D2L Discussion Growth Mindset Module 1 - Intro to Growth Mindset DUE BEFORE CLASS MEETS
	8/26	CLASS 3	2.4	Factoring Trinomials
			2.5	Factor a Difference of Squares
				ALEKS HW 1.5, 2.3 DUE BEFORE CLASS 4 MEETS
				ALEKS PATH PART 2 OF 4 DUE BEFORE CLASS 5 MEETS
	8/28	Class 4	3.4	Solving Quadratic Equations by Factoring
			4.1	Simplify & Multiplication and Division of Rational Expressions
				ALEKS HW 2.4, 2.5 DUE BEFORE CLASS 5 MEETS

			D2L Discussion Growth Mindset Module 2 - Time Management DUE BEFORE CLASS 5 MEETS	
	9/4	CLASS 5	4.1	Simplify & Multiplication and Division of Rational Expressions
			4.2	Addition and Subtraction of Rational Expressions
			ALEKS PATH PART 3 OF 4 DUE BEFORE CLASS 6 MEETS	
			ALEKS HW 3.4, 4.1, 4.2 DUE BEFORE CLASS 6 MEETS	
	9/9	CLASS 6	4.4	Solving Proportions
				Review Test 1
			ALEKS HW 4.4 & Test 1 Review DUE BEFORE CLASS 7 MEETS	
			D2L Discussion Growth Mindset Module 3 - How to Study for an Exam DUE BEFORE CLAS MEETS	
	9/11	CLASS 7	Test 1 (1.4, 1.5, 2.3-2.5, 3.4, 4.1, 4.2, 4.4)	
			3.1	Introduction to Radicals and Their Simplification
			4.5	Rational Exponents
	9/16	CLASS 8	4.5	Rational Exponents
			3.5	Solving Quadratic Equations by Using the Square Root Property & Complete the Square
			ALEKS HW 3.1, 4.5 DUE BEFORE CLASS 9 MEETS	
			ALEKS PATH PART 4 DUE BEFORE CLASS 9 MEETS	
			D2L Discussion Growth Mindset Module 4 - Test Anxiety DUE BEFORE CLASS 9 MEETS	
	9/18	CLASS 9	3.6	Solving Quadratic Equations by Using the Quadratic Formula
			4.6	Radical Equations
			ALEKS HW 3.5, 3.6, 4.6 DUE BEFORE CLASS 10 MEETS	
			D2L Discussion Growth Mindset Module 5 - Test 1 Reflection DUE BEFORE CLASS 10 MEE	
	9/23	CLASS 10	1.6	Absolute Value Equations
			5.1	Distance & Midpoint Formulas
			ALEKS HW 1.6, 5.1 DUE BEFORE CLASS 11 MEETS	
			ALEKS PATH PART 5 OF 6 DUE BEFORE CLASS 11 MEETS	
			D2L Discussion Growth Mindset Module 6 – Learn How to Do Better DUE BEFORE CLASS MEETS	
	9/23	CLASS 11	5.2	Circles
			ALEKS HW 5.2 & Test 2 Review DUE BEFORE CLASS 12 MEETS	
	9/25	CLASS 12	Test 2 (1.6, 3.1, 3.5-3.6, 4.5-4.6, 5.2, 5.2)	
			5.4	Linear Equations in Two Variables
	9/30		5.4	Linear Equations in Two Variables
		CLASS 13	5.5	Write the Equation of a Line
			ALEKS HW 5.2, 5.4 DUE BEFORE CLASS 14 MEETS	
	10/2	CLASS 14	5.3	Functions and Relations
			ALEKS HW 5.5 DUE BEFORE CLASS 15 MEETS	
	10/7	CLASS 15	6.1	Transformations of Graphs
			ALEKS HW 5.3 DUE BEFORE CLASS 16 MEETS	
	10/9	CLASS 16	6.1	Transformations of Graphs
			ALEKS HW 6.1 DUE BEFORE CLASS 17 MEETS	
	10/14	CLASS 17	6.2	Symmetry, Even/Odd and Piecewise-Defined Functions
			ALEKS HW 6.2 & Test 3 Review DUE BEFORE CLASS 18 MEETS	

10/16	CLASS 18	Test 3 (5.3, 5.4, 5.5, 6.1, 6.2)		
		6.4	Algebra of Functions and Composition	
10/21	CLASS 19	6.4	Algebra of Functions and Composition	
		6.3	Difference Quotient	
		ALEKS HW 6.4 & 6.3 DUE BEFORE CLASS 20 MEETS		
10/23	CLASS 20	7.1	Quadratic Functions and Applications	
		7.5	Quadratic Inequalities	
		ALEKS HW 7.1 & 7.5 DUE BEFORE CLASS 21 MEETS		
10/28	CLASS 21	9.1	Inverse Functions	
		ALEKS HW 9.1 DUE BEFORE CLASS 22 MEETS		
10/30	CLASS 22	9.2	Exponential Functions	
		ALEKS HW 9.2 & Test 4 Review DUE BEFORE CLASS 23 MEETS		
11/6	CLASS 23	Test 4 (6.3, 6.4, 7.1, 7.5, 9.1, 9.2)		
		9.3	Logarithmic Functions	
11/4	CLASS 24	9.3	Logarithmic Functions	
		ALEKS HW 9.3 DUE BEFORE CLASS 25 MEETS		
11/13	CLASS 25	9.4	Properties Logarithms	
		ALEKS HW 9.4 DUE BEFORE CLASS 26 MEETS		
11/18	CLASS 26	9.5	Exponential Equations and Applications	
		ALEKS HW 9.5 DUE BEFORE CLASS 27 MEETS		
11/20	CLASS 27	9.6	Logarithmic Equations and Applications	
		ALEKS HW 9.6 & Test 5 Review DUE BEFORE CLASS 28 MEETS		
11/25	CLASS 28	Test 5 (9.3-9.6)		
		10.1	Graphs of Systems of Linear Equations in Two Variables	
12/2	CLASS 29	10.1	Graphs of Systems of Linear Equations in Two Variables	
		10.2	Systems of Linear Equations in Two Variables and Applications	
		ALEKS HW 10.1, 10.2 DUE BEFORE CLASS 30 MEETS		
12/4	CLASS 30	Final Exam Review		
12/9	FINAL EXAM DAY	In our classroom		
The instructor reserves the right to adjust this schedule.				

Changes to the Syllabus

The instructor reserves the right to make changes to the class syllabus. The syllabus is a guide, and every attempt is made to provide an accurate overview of the class. However, circumstances and events may make it necessary for the instructor to modify the syllabus during the semester. In the event changes become necessary, students will be notified in writing via email or D2L announcement.

Academic Accommodations and Electronic Content Conversion*

Academic Accommodations: Any student seeking academic accommodation due to a disability must first register with Accessibility Resources or by visiting https://www.broward.edu/accessibility/resources.html. If approved, and in accordance with Broward College Policy 6Hx2-5.09, (https://www.broward.edu/legal/policies-and-procedures/_docs/policy/6hx2-5.09.pdf0) it is the student's responsibility to then deliver their accommodation plan in person or via email to the instructor and discuss accommodation for the class. Accommodation is not retroactive. Students who wait until after completing the course, or an activity, to request accommodation should not expect any grade to be changed, or to be able to retake the course or activity.

Electronic Content Conversion: All students in this class have access to Blackboard Ally, which is a tool that can easily convert electronic text into alternative formats such as MP3 files and readable PDFs. For information on how to utilize this tool, please visit the Blackboard Ally Help Page at https://www.broward.edu/accessibility/ally.html.

Safety, Security, and Emergency Preparedness*

Safety is everyone's responsibility, and it is essential that all members of the Broward College community familiarize themselves with various safety tools, resources, and procedures to remain safe both on and off-campus. You are encouraged to visit the Campus Safety & Security website (https://www.broward.edu/safety/) for a wealth of information and resources as it relates to safety at Broward College. Included on the website is a variety of information, videos, and resources on crime prevention, active shooter preparedness, how to report suspicious activity, hurricane preparedness (https://www.broward.edu/safety/emergency-preparedness.html), services, and how to respond in an emergency. Campus Safety is available 24 hours a day, 7 days a week and can be reached by calling **954-201-HELP (4357)**. In the event of a school closing, due to weather or other major events that might impact class schedules, the instructor will post an announcement and/or send an email indicating what changes, if any, the event will have on the course schedule and due dates.

Help Desk (Service Portal)*

If you need help using D2L:

- Click on D2L Support at Broward College (https://bconline.broward.edu/content/resources/d2l/index.html?ou=557056)
- Visit the 24/7 Help Desk (Service Portal) page for 24-hour technical assistance, or
- Contact the BC Help Desk (Service Portal) at 954-201-7521.
